# BLUE SHIELD

## FLOOR BOARD

### Temporary Surface Protection

**Product Description:** Floor Board is a high caliper, paper based temporary surface protection material.

**Composition:** Floor Board is a 45 mil thick, recycled paperboard featuring a moisture resistant treatment to the fiber structure.

**Products Offered:**

Product	Rolls per Pallet	Roll Weight (lbs)
45 mil – 38" x 100'	16	50

**Floor Board Features:**

- Impact Protection
- High Level of tear and puncture resistance
- Good Wet and Dry Skid Resistance
- Reusable, Recyclable
- Moisture Resistant
- Breathable

### Impact Protection

Floor Board is a robust, 45 mils thick. This thickness provides outstanding impact protection.

### Water Resistant

Floor Board has a water resistant treatment to the fibers of the paperboard. This allow for temporary moisture hold out from spills. Floor Board is also breathable; unlike poly film based protective products.
