

Blue Shield Grade PW

Poly-Coated Paper

Product Description: Poly Wrap (PW) is a poly-coated kraft paper.

Composition: Poly Wrap is high strength 50lb/3MSF natural kraft coated with 3/4 mil of extruded clear polyethylene.

Sizes & Weight: Blue Shield Grade PW is offered in the following widths and lengths:

Widths: 24", 36", 48", 60", 72", 96"

Lengths: 300' and 600'

*** Custom sizing is available, contact Holland for more information***

Grade PW weighs approximately 20 lbs per MSF (thousand square feet).

Poly Wrap Features:

- Oil, grease and water resistant barrier
- Increased puncture resistance
- Good MVTR (Moisture Vapor Transfer Rate)
- Non-bleed, non-staining

Economical Protection

Blue Shield Poly Wrap (PW) is an economical solution for moisture protection. The high-grade 50lb natural kraft paper provides good strength and consistency for the product. The polyethylene coating offers a clear finish barrier layer. For applications that do not require the tear resistance of a reinforced grade, Poly Wrap is a good alternative.

Some of the more common applications for Poly Wrap include pallet liners, slip sheets, and industrial wrapping.

Poly Wrap can also be produced in different colors; however, larger minimums do exist for custom production.

Applications

- Export Shipment Protection
- Machine Part Wrap
- General Metal Wrap
- Floor Liner for trucks or rail cars
- Moisture barrier wrapping paper
