

Blue Shield Grade SW-40

Product Description: Blue Shield SW-40 is a poly-coated, woven reinforced laminated paper.

Composition: SW-40 is combination of a 40 lb/ream natural kraft sheet laminated to 0.7 oz/yd² HDPE woven reinforcement by 1.5 mils of white, UV stabilized LDPE.

Roll Sizes: Blue Shield SW-40 is offered in the following widths and lengths:

Widths: 24", 36", 48", 60", 72", 96"

Length: 300' and 600'

** Custom sizing is available upon request **

SW-40 weighs 25 lbs per MSF.

Blue Shield SW-40 Features:

- Oil, grease and water resistant barrier
- Exceptional tear and puncture resistance
- High Level MVTR (Moisture Vapor Transfer Rate)
- Superior forming characteristics, easily folded without cracking or barrier loss.
- Excellent lay flat

Woven Strength

Blue Shield SW-40 is Holland's most tear resistant paper. Featuring woven mesh reinforcement, SW-40 is designed for the most demanding applications which require superior durability and toughness.

Poly Barrier

Unlike many other woven/paper laminations, SW-40 features a coating of white UV resistant polyethylene over the top surface of the woven fabric. This top coating enhances the product's barrier and durability properties.

Paper Backed

SW-40 has a paper backing which allows the product to absorb moisture, oil and grease. Also the paper surface is easy to write on which can be a significant advantage in industrial applications.

Applications

- Metal Packaging
- Industrial Packaging
- Lumber Wrap
- Floor Protection
- Other Applications where tear resistance and barrier is required.
